1. COMMAND

1.

COMMAND

Thank you for your Daily Report.

HONEYMOON

Jon Horwich and Diana are Chicago bound today to see his family and have a repeat US ceremony and are then going to the sunny isles for a honeymoon.

Jon finished his FEBC. Diana has been tidying up the CS-6 post and turning things over to her temporary relief.

They will be back in about three weeks.

WOOD

Never put soft woods into ship construction. Shelves partitions, bunks must NEVER be built of soft wood timbers.

Recently contractors have been permitted to use the cheapest possible soft wood, the kind used to make apple boxes, in ship shelving and construction.

This is sabotage. Such soft woods rot. They cannot be polished or varnished. Also Cockroaches can use soft wood for nesting. Soft

woods are weak and splintery and break up easily.

Only hardwoods should ever be used in making anything, even shelves and cabinets, on a ship.

You can tell hard woods from softwoods easily. You can sink a fingernail into soft wood and leave a dent. You can't do this with hard woods.

Of the usual variety of hard woods any can be used in ships except one with a high odor like some types of oak.

Contractors seek to save money on materials and so make a further profit. They will use "Russian deal" (the cheapest soft wood) at the least excuse if not watched. Wood type and kind has to be specified in all contracts. And then inspected.

AUDIO VISIO

The high cost and slow completion of the Audio Visio room, not yet in use, and use of soft woods in it will be the subject of a B of I to be called by the C/O FSO.

SOLO

Some time ago there was a campaign to get crew onto R6EW and Solo. I find many are not.

Also some cases are parked by incomplete programs requiring HGC action.

A further campaign to end off these "parked" cases in the most rapid possible way and get them onto Solo soonest must be instigated by the TECH SEC FAO.

No new crew cases should be begun until "parked" ones are pushed up into Solo range.

"Complete in HGC" is the target.

Dozens of cases are overlong in grade.

L10s should be completed only after OT III anyway. So an HGC completion does not mean "all possible pgms we can do in HGC." It means just get the pc safely off into Solo.

There are also some non-soloing solo auditors aboard.

FEBCs who have Solo work to be done should be shoved onto it hard within 48 hours of arrival.

I want to see crew "HGC Completes" up through the roof and Solo w.d. hours ranging around 900 a week minimum!

LRH, COMMODORE

3.5.71

2. FAO GDSes indicate further heavy ACTION needed on letters out (HCO) Income (Treas liaise with Treas Bus) both credit and APR. Training in continued Power trend since January requires IMMEDIATE reinforcement to avoid decline. Auditing hours must be raised back up to its load of 8 April and completions as well. FAO Prod Plan 1-A covers these points but MUST NOT be awaited. Our book sales climbing beautifully. Orders have been issued to connect FSM Comms. line. The rising stats of Bills Paid, Letters Out, Bulk Mail Out, and Statements are well received and commended. If we get the kinks out of Income and get flying on the Internship programme, we'll be in power in no time.

Lt. Cmdr. A. Jessup
C/O FAO

3.5.71

3. As he is being scheduled for a Flag post, LT. CMDR. WALLY BURGESS's transfer to TRC is cancelled and he remains on board.

Lt. Cmdr. A. Jessup

3.5.71

4. We sail from this port tomorrow afternoon. This time we had better not be held up. Readiness lists are to be issued at 1000 Hrs. today to all aboard and must be done on receipt. Completed readiness lists are to be turned in to Div heads by 1200 Hrs 4.5.71, who are to forward to the C/Os of their orgs. I will collect the complete packs at 1400 Hrs. 4.5.71. I will make a list of any late reports or no reports and demand heavy ethics actions on offenders. I am sorry to have to threaten these measures. It took me over 6 hrs. last sailing to collect up the lists. Many aboard were most co-operative and on time. Some weren't. They know who they are.

Lt. N. F. Starkey
Captain FSO

3.5.71

5. COMMENDATIONS: The 1st Mate, STUART MOREAU and all Div IV Members are highly commended on the ship appearance and for working so hard to improve it. The Chief Engineer, LT. DAVE MURPHY & E/R are commended on improved hotel services and for high production. The Chief Steward, KENILEE MOORE & all Div III are commended on the improvement in meals, messing and berthing. The Port Captain, W/O RIGGS ECKELBERRY and Ships Rep, LT. PETER WARREN are commended for improvement in activities ashore and attainment of a Safe Port. The new Dept IV Org Officer, JOHN BRAGIN is doing his stuff and is also appreciated. FAO hat checker, ROB WILLIAMSON is highly commended for his efforts and successes in getting the FSO hatted, trained and org boarded. He is doing the FSO a good service.

Areas needing attention are:

- 1: Purchasing, especially external lines.
- 2: a) Increased PRO area control to gain Safe Ports for the others on our schedule. b) A Port Captain I/T on Post and Ships Rep I/T, fully hatted.
- 3: Audio Room completion.
- 4: FSO GDSes & Post Stats.
- 5: Preparation for Hold 1 & 2 constructions.

Lt. N. F. Starkey
Captain FSO

3.5.71

2. ORDERS

6: QMs PLEASE NOTE: Goods are not to be allowed off the ship if they are either valuable or consisting of a quantity of the same thing, unless they have my OK. This is because items like tape recorders, radios, 20 mattresses, machine parts for repair, have to have customs clearance to leave the ship.

TRANSPORT I/C AND CUSTOMS: Transport I/C should refuse to transport to the ship any large quantity of goods, (more than \$20 worth) unless he knows from me specifically that these items are OK to be so transported.

Lt. Peter Warren
Ship's Rep

3.5:71

3. PERSONNEL

7. WELCOME ABOARD! to LUTEN TAYLOR, recruit from Las Vegas, ØGRMEM McALLISTER, recruit from UKLO, VIOLET VINEL, recruit from Vancouver, TIM EATON, recruit from Boston, TOM WHITE, recruit from Putney, Vermont. Good to have you all aboard!

ARO, Murdoch
Reception & Routing Officer 3.5:71

4. NEWS FROM THE HATTING SECTION

8. 1: A QM of The Anchor Watch Checksheet has been approved and sent to Mimeo for issue.

2: Well done to LT. CMDR. AMOS JESSUP who completed his C/O Orientation Checksheet.

3: Any personnel who have completed checksheets but haven't reported the fact via Examiner & C & A should do so today. This is a standard line. There are quite a few who should do this and properly end cycle on their accomplishments.

4: The Admin Scale rundown per HCO PL 6 Dec 70, Third Dynamic De-aberration, is now a standard hatting section service. Its results are amazing. Several posts have gone from minus to a big plus in a matter of hours by doing and aligning their post admin scale.

Just like the Man said....!

CPO David Ziff
Personnel Hatting Officer 3.5:71

5. NOTICES

9: 900 Class VII to X Internship flyers have been mailed to S.O. and outer Orgs to encourage them to send their auditors to train "NOW". "A boom is Being Created ..."

HAS FAO

3.5:71

10: BLANKETS: Cold? We got in some more blankets. Come during regular laundry hours if you need one!

LINENS: Thanks for turning in your dirty linen. Clean linen is getting out to you quicker and more regularly as a result.

Dale Wilson
Laundry I/C

3.5:71

11. LAUNDRY: Thanks to those who helped bring on laundry yesterday. Your laundry is here: Eva Anderson, Ken Urquart, Charles Varga, Jim Jenkins, Carl Barney, Bill Lowrance, Margie Vannier, Kay Wilson, Mike Davidson, Fran Anderson.

Again, did you get the wrong size jeans? W - 32, L - 30 needed in exchange for W - 28, L - 30.

Dale Wilson

3.5.71

12. Dear FEBC-ers,

Today you'll be getting a Success Form in your basket. What I want you to do is write a Success Story on BOOKS, for the Auditor. Have you had any wins from reading Scientology books? Was it a book that got you into Scientology in the first place? Please write these today and turn them into the Success Officer. Thanks.

Nancy Reitze
Success Officer

3.5.71

3.5.71

14. A big thank you to JIM CINCALCI (MO), BRIGITTE STERNBERG (1/MO), and BOB GUILFORD for so speedily getting me back on my feet so I could get back down to HCI and the "FEBC-ers". Glad to be back in the team.

Love, John Steven

3.5.71

15. COMMENDABLE to GERRY ARMSTRONG, Ship's Driver, for excellent service and willing help over the past few days' offloading.

Muchly appreciated,
Al Dist Sec

3.5.71

16. COMMENDABLE also to W/O RIGGS ECKELBERRY & LT. PETER WARREN for the supreme ease with which we moved through customs! You guys are great!

Al

3.5.71

17. ELECTRICAL COMPLETIONS FOR WEEK ENDING 29.4.71: The lighting in the new Audio Room in the forward tween decks is wired up like the control room of a Galactic Patrol Ship - done by your local sparkies, who also this week installed a new joining connector in the welding cable, did 7 inspootions, 2 (other) new installations, 14 services, 14 minor repairs, docking stations, 6 battery services, 8 shore cycles including an errand to Gibraltar, 15 organizing actions and replaced 64 bulbs. The hardware used in the Audio Room includes: 120 meters of lead sheathed cable, 7 wall switches, 14 junction boxes, 30 connector blocks, 16 meters of raceway, 10 lampholders, a striplite fitting, 6 60w lamps, 4 pygmy indicator bulbs, 8 3-pin sockets, 2 2-pin sockets, 25 brass clamps 80 wood screws, 50 M.T. screws & nuts and 6 meters TPS cable, all installed in 176:15 hours. Good goin' guys.--

Ens: Bill Lowrance
Chief Electrician

3.5.71

7: SUCCESS

18. Success Story written by ROB FARAGHER after completing FEBC Part I:

"This is the best stuff I've ever seen. It seems as if all the questions that I'd over had are already answered. The ease with which an Org can be run is beautiful and I can do it now.

Purpose gets stronger each day to get through faster, get back home and make each place I go to, as safe, and as groovy as Flag."

3.5.71

18. BILL SURGEONER's Success Story after completing the FEBC:

"What do you say about a course like that!! -- I'll tell you -- not much you just do it, do it. A division, an org, a country, a planet!!! I can do it!-- I say we'll have no trouble with this planet-- it is certain. To LRH - the Flagship--thank you -- you deliver what you promise!"

3.5.71

8: MENU

19. BREAKFAST - TODAY: Cereal, French Toast, Eggs & Tomatoes, Fruit.

LUNCH: Tomato Soup, Chili Con Carne, Beet & Onion Salad, Lettuce, Rice Custard Pudding, Fruit.

DINNER: Goulash, Boiled Rice, Tomatoes & Peppers, Green Salad with French Dressing, Fruit Salad, Fruit.

TOMMOROW'S BREAKFAST: Cereal, Pancakes, Eggs & Bacon, Fruit.

Love, Sven
